## ARIZONA IS KICKING ON FREIGHT RATES

Complaints Filed Against a Number of Railroads for Overcharges on Freight.

Tombstone, Ariz., Sept. 24.—Having attended a meeting of the Arizona Railway commission to discuss complaints which have been filed with the interstate commerce commission, and others which are about to be filed, W. P. McNair, chairman of the territorial railway organization returned today from Phoenix to his home in Douglas.

Unjust, unreasonable, and excessive rates are alleged to be charged from eastern points to Clifton in a complaint which has just been filed by the railway commission with the interstate commerce commission against the Santa Fe railroad, the El Paso & Southwestern, the Lordsburg & Hachita, and the Arizona & New Mexico railroad companies.

The complaint follows a statement laid before the territorial commission by the Becker Franz company of Clifton, alleging that the through rate charged by the railroads on flour and meal from Kingsley, Kans., to Clifton, Nev., is higher than the combined local rates between those points.

The commission took the matter up with the carriers, but was unable to secure a proper adjustment of the rate, and the filing of the complaint followed.

## RIPLEY DENIES CHARGES

MADE BY SENATOR CUMMINS  
Topeka, Kan., Sept. 24.—E. P. Ripley, president of the Atchison, Topeka & Santa Fe railroad, has given out a statement in answer to the recent charges of Senator Cummins at Topeka, Kan., that the railroads of the country had increased their capital \$3,500,000,000 without anything to show for it. The statement says:

"While I have been unable to identify the particular 10 years the senator had in mind, it is undoubtedly true that between 1898 and 1908, the railroads of the country added more than \$3,500,000,000 to their capitalization and it is surely untrue that it was done without the investment of independent capital."

## TRUCE DECLARED BY THE G. H. CARMEN

However, No Definite Settlement of Disagreement Is Yet in Sight.

An armed truce is a phrase that properly terms the present relation between the G. H. C. A. and other Hariman lines in Texas, and the railway carmen. While every effort is being made to effect an agreement and both sides are showing consideration, their relations are strained, and pending an adjustment both sides are strengthening their position.

It is claimed by the carmen that their organization, the Brotherhood of Railway Carmen, is 50 percent stronger than when the trouble first broke out. M. P. Ryan, president of the brotherhood, is at present at New Orleans and will go to Algiers, both important points on the Southern Pacific lines, having gone there in response to a letter saying that 200 men at the shops there wished to organize a lodge.

The carmen at San Antonio have also notified the brotherhood officers that they wish to organize. It is said that men are being sent out to all points on the line from El Paso to New Orleans and should the agreement fail, the strike would be simultaneous all along the line. The road and the carmen are proceeding with extreme caution, realizing that it is a time for coolness and sound judgment, and a strike will be the last resort. The El Paso organization has been gaining recruits steadily since the first indication of trouble.

The section of the rules desired by the carmen, which is being held in abeyance until further conferences are held to relate to freight rates and seniority. Officers of the carmen say that if a proposition is not agreed to this week negotiations will be called off.

Many Passes on Texas Railroads  
Number Issued to Employees  
Last Year Totaled 450,000; Bill to Reduce.

San Antonio, Texas, Sept. 24.—Although the Texas and Pacific law prohibits the issuance of free passes to any person other than bona fide employees of the road under salary, yet the annual reports of the Texas railroads show that over 450,000 passes are issued, and thousands upon thousands of miles ridden by the holders of these passes. There were a total of 450,000 passes issued in 1909, and the holders rode over 1,749,829 miles.

This enormous extra mileage the citizens of Texas who did not ride on passes had to pay in the way of passenger fares or increased freight rates.

The Missouri, Kansas & Texas issued 62,029 passes upon which the holders rode 1,578,546 miles.

The Texas & Pacific issued 60,232, upon which the holders rode 1,456,542 miles.

The Houston & Texas Central, also a Southern Pacific line, issued 40,238 passes, upon which the holders rode 818,883 miles.

The smaller roads issued from 15 passes up to 45,000 and the mileage ranged from 418 to 11,000,000 miles.

There will probably be a bill introduced at the next session of the legislature providing for a further reduction of the number of passes issued.

E. P. & S. W. WILL NOT BUILD TO CALIFORNIA  
Confines Its Lines to Mining Centers and Will Develop Larger Copper Mining Interests.

That the reported intention of the El Paso and Southwestern to extend its line through Arizona into southern California territory, in view of the acquisition of a heavy interest in the Rock Island, is denied by the vice president of the Phelps-Dodge company, the statement of the Wall Street Journal. It is stated that the fact that Dr. James Douglas is primarily a mining man and that the interests of Phelps-Dodge & Co. are centered almost exclusively in the mining industry.

The report has gained currency, it states, that Phelps, Dodge & Co. are planning to extend the El Paso and Southwestern from Benson into southern California territory, but this is denied by the Phelps-Dodge vice president. The Phelps-Dodge road has exclusive rights of way in the territory in which they operate, and enjoy reciprocal relations with the Rock Island, Southern Pacific and Mexican Central, it is said.
